General Description:

The 3.3v USB1.1 device PHY is capable of transmitting and receiving serial data at both full speed (12Mbit/s) and low speed (1.5Mbit/s) data rates. It is designed to meet standard logic to interface with the physical layer of the universal serial bus.

Features

- Compatible with Universal Serial Bus specification 1.1
- Support single-ended data interface
- Support 12Mbit/s "Full Speed" and 1.5Mbit/s "Low Speed" serial data transmission
- Single 3.3v supply
- Supports Universal Serial Bus specification 1.1 device physical layer
